

Installing Microsoft .NET Framework Version 2.0

Several parts of Posbrowser require that you have the the Microsoft .NET Framework Version 2.0 installed on your system.

1. Open up Internet Explorer.
2. Navigate to the following URL -
<http://www.microsoft.com/downloads/details.aspx?familyid=0856EACB-4362-4B0D-8EDD-AAB15C5E04F5&displaylang=en>

(You can click on the above link or cut and paste the URL into the address bar in Internet Explorer)

3. Click on the 'Download' button.
4. When the download box appears, click on the 'Save' button.

5. In the 'Save In' drop down box, select 'Desktop' which will save the download to your Windows desktop.

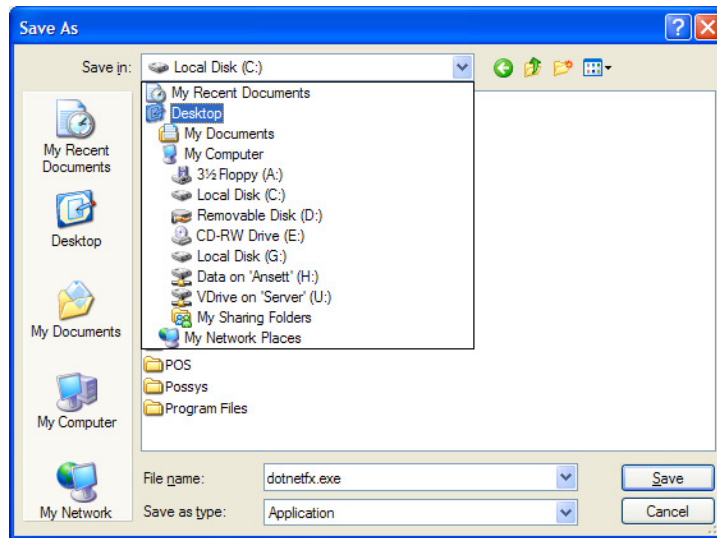

POS Solutions Australia Pty Limited

ABN 91 006 195 400

Please address all correspondence to:

Pos Solutions Australia

PO Box 2194 MOORABBIN VIC 3189

6. Click the 'Save' button and the file will start downloading.
7. When the download has completed, click the 'Open' button to start the installation.
8. If the following box appears, click 'Run'.

9. When the setup box appears, click the 'Next' button.
10. Tick the 'I accept the terms of the Licence Agreement' option.
11. Click the 'Install' button. The program will now install on your computer.
12. When it has finished installing, click the 'Finish' button.

Microsoft .NET Framework Version 2.0 is now installed on your computer.
